

LAURA CAICEDO D.

Full Stack Developer Junior

I'm a full stack developer, passionate for this mesmerizing technology field, I am able to develop web projects with the best quality standards and using the most modern tools, always adapting my skills in order to meet the needs of each client and project.

I've developed multiple freelance projects in my academic path, applying various integrated and innovative methodologies and using frontend as well as backend technologies. I excel in the creation of user experiences, and aesthetic performance in the design field. In addition, I always like to exceed client's and user's expectations looking forward to immerse them in the most exceptional and interactive experience.

.....
